Company Announcement.

## **Kheeran Receives the Certificate of Recognition (COR)**

**Edmonton, AB (March 1, 2016) – Kheeran Inspection Services Inc.** is proud to announce that it has received the Certificate of Recognition (COR) issued by the ACSA.

Kheeran has been operating under the guidelines of COR standards for over a year and becoming certified was the logical next step. The decision anticipates the growing demands from clients to be COR certified.

Kheeran is committed to providing the upmost safety standards and equipment to protect everyone on the jobsite. Getting everyone home safe is our top priority. As a result, we have created an extensive safety program and procedures that our employees operate under. All Kheeran employees and contractors complete the Kheeran Orientation Program to ensure they are familiar with the various company programs, including Health and Safety.

To become COR certified, Kheeran went through an evaluation process that included looking at our entire safety program and documentation. This process is designed to help us identify corrective actions and make the appropriate changes. The main goal is the continual improvement of our system and overall safety program.

### **Jared VanderMeer / Operations Manager**
